## **Southwest MLS in Albuquerque, NM Selects CRS Data to Provide Public Records Information**

KNOXVILLE, Tenn. – April 15, 2013 – CRS Data today has announced that Southwest MLS has signed a five-year agreement with CRS Data to be its real estate information source for public records for its estimated 2900 members. The agreement extends the company's MLS client base in the southwest where it also serves the Tucson MLS. CRS Data (Knoxville, TN) is a provider of data, maps and mortgage information through its analytical software. It currently serves 33 MLSs across the country. The service to Southwest MLS commences in September 2013.

The Southwest Multiple Listing Service, Inc. (SWMLS) is a wholly owned subsidiary of the Greater Albuquerque Association of REALTORS®. It is recognized as the leading provider of real estate information services, data and education in New Mexico.

### ***About CRS Data***

CRS Data (Courthouse Retrieval System, Inc.) is a major provider of property information and maps to MLSs, financial institutions, and other industries that need access to accurate real estate data on a daily basis. Information about CRS Data can be found at [crsdata.com](http://crsdata.com).
